

## New Beauty Institute

If cellulite, stretch marks and other visible signs of aging have you worried, let the Institute New Beauty in White Rock help turn back the hands of time.

Owner Caree Ludwar opened the state of the art, full service-wellness centre on Martin Drive around five years ago, offering innovative programs and weight loss solutions that combine science with technology for guaranteed results.

"We offer the most advanced medical methods of cosmetic skin rejuvenation with no surgery and minimal discomfort," she says.

"You'll not only feel the difference, you'll see the difference!" Institute New Beauty has a wide variety of unique and effective anti aging and weight loss programs you won't find anywhere else on the Peninsula.

To ensure that each new treatment is 100 per cent highly-effective, Caree says she always tries them on herself before offering the service to clients.

"I try everything I purchase for the clinic. If it does not work or give me the results I want, we simply do not offer the service."

A new anti aging treatment that Caree has experienced phenomenal results with and is thrilled to share with clients is The Titan Skin tightening machine.

"It has helped my skin look 20 years younger," says Caree of the non invasive procedure that delivers remarkable skin-tightening results without the downtime, scars or higher costs associated with surgical procedures.

The Titan works by revving up the collagen and Elastin fibres and signal the body to make collagen. Collagen provides structure and is essential for healthy, plump skin, according to Caree.

"Over time, our bodies naturally lose collagen and begin producing less of it. Once collagen levels become depleted, moisture levels diminish and elasticity is lost- the result is wrinkles, lines and loose skin."

To fully understand the importance of collagen, Caree suggests thinking of the skin as the material Lycra.

"When the skin is young and elastic, it has support and literally wraps itself around the face. But as we lose collagen and the skin thins, it behaves more like linen since it's elastic and support qualities are lost."

Caree recommends having around two to three treatments to achieve optimal results.

Call Institute New Beauty today to arrange your private and complimentary consultation at 604-541-8750. Evening appointments are available on request.
